

## TOWNS ARE IN ASHES

Forest Fires Destroy Three Mesaba Mining Camps.

## COMMUNICATION IS CUT OFF

Women and Children Were Loaded on One Case and a Wild Race for Life Followed.

Duluth, Minn., June 18.—The results of a year of enterprise on the Mesaba range have been wiped out in a single day. Advisers received today indicated that the towns of Virginia and Mountain Iron had been destroyed and that Duluth was partially if not entirely wiped out. It is impossible to estimate the loss, but it will approximate \$1,000,000 and several thousand people are homeless. For three weeks the range has been in danger. Forest fires have been burning on all sides of the new mining towns and only by the greatest effort has the disaster of today been so long averted. The towns of Mesaba lie in a nearly straight line along the range and cover a distance of some twenty-five miles. The towns are McKinley, Mesaba, Burnsville, Virginia and Mountain Iron, with an aggregate population of about 6,000. The most important of these is Virginia with 3,500 population and then Burnsville with 2,000. Mountain Iron has a population of about 800 and McKinley 200. On Saturday the first news was received which indicated a very serious danger. Up to this time the range towns had fought the fire for themselves and had so far as possible kept the news of their danger from the outside world for fear their prospects might be injured.

## Save the Women and Children.

On Saturday General Manager Millard of the Mesaba & Northern road received advice which convinced him that the danger was imminent and he went to Virginia to look after the interests of his road, which touches most of all about the village, but there was every reason to believe it could be kept under control. This morning a strong wind blew up and the greater part of the range was doomed. The first news came from General Manager Phillips, who telegraphed at 2 o'clock to President Merritt of the road:

"Men, women and children loaded on our cars to leave. For God's sake send us aid."

At nearly the same time messages were received from the other range towns. The operator at Mountain Iron telegraphed that the town was burning, and the Duluth & Iron Range road at Burnsville wired to President Merritt of his road: "Goods removed from depot. Good bye."

Since that time the wires to Burnsville have been down. The Mesaba officials state that there are indications that Burnsville has been saved, but the indications are that the village has shared the fate of Virginia.

At 6:15 p. m. Mr. Phillips telegraphed: "The whole town of Virginia, including freight house, is burned. We are bringing women and children here and have two engines trying to get cars out. Tell Mr. Fisher of the Duluth & Winnipeg to be prepared to let us send women and children to Duluth by special."

## Help for the Sufferers.

A later message stated that of the whole town only three houses were left standing. In Duluth the news was that by immediate preparation to care for the hundreds of homeless people. A special train was ordered by President Merritt of the Duluth & Iron Range road and car loads of provisions were ordered. At 9 o'clock the train was ready. It will reach the range about midnight.

Tonight communication with the range is almost cut off. It is impossible to obtain a list or even an estimate of the loss. At Virginia there were a considerable number of buildings, five hotels and about 500 houses. Virginia losses were very generally insured, the Sun of London carrying the greater portion of the risks. At Mountain Iron there was no insurance as the companies cancelled all their policies some days ago.

The last advice from the vicinity of Virginia is that 1,100 people, mostly women and children, have been loaded in cars and will be brought to Duluth. The train is expected at 2 o'clock tomorrow morning, and preparations are being made to care for the sufferers. President Spencer of the council, the acting mayor, has authorized a gift of \$1,000 from the city and all the provisions that may be needed for immediate relief. A special meeting of the council and a citizens' meeting have been called for tomorrow morning. Appeals will be offered the suffering people.

## Another Town Destroyed.

The last advice is contradictory. There is no question as to Virginia, but it is said that a considerable portion of Mountain Iron is safe. Mesaba, the first town located on the range, now nearly destroyed, is burned. There were about twenty houses there. Burnsville can be located by McKinley. It has probably escaped. The fire area is said to be twenty-five by three miles and spreading rapidly. Latest advice from the range adds Merritt to the list of towns burned. It was a village of 300 people and was only about a mile from Burnsville. The latter town is probably safe, though reports concerning it are contradictory. The towns are about twenty miles from Duluth and the only means of communication with them is by the railway company's line. No complete story of the fire can be obtained until the train from Virginia bearing the women and children reaches the city. The Mechanics of Milwaukee will be a heavy loss by the fire. Its risks in Virginia are said to have been more than \$100,000. The Sun of London will lose about the same amount.

## Iron River in Flames.

Duluth, Minn., June 18.—A special to the News-Tribune from Ashland, Wisconsin, says: Iron River, a lumbering town of 2,000 people, is in flames and likely to be entirely destroyed. The fire caught from the forest fires, destroying the new school house and two churches. The fire started at 2 o'clock and by 4 o'clock the entire mainline position was in flames. Help was asked and a detachment of the fire department was sent from Ashland. Several people have been brought to

## FOR THE BIG DERBY

Some of the Horses That Will Face the Starter

## FOR THE ENORMOUS STAKE

Excellent Form of American Champions in the List of Entries, as Pick One Year Winner.

CHICAGO, June 18.—On Saturday next the American derby, the most valuable 3-year-old stakes ever run in this country, will be decided at Washington park. The management of the club acted wisely when it decided to offer in the world's fair a prize that would attract not only all the best colts in America, but representatives from the other side of the water. And that the liberality was appreciated was shown by the club receiving no less than 255 entries, a larger number than has ever been made for that classical event, the English derby. From England the Duke of Beaufort, Colonel North, Lord Durham and Mr. Tottenham made entries, while J. E. Seagram represented Canada. All the best colts of the country, with the exception of Morelli, were entered, and no such race has ever filled better. The two days of declaration were February 1 and April 1, and after the last date 112 horses were still left eligible to compete for the big event. Of these, one, Picton, has since died, and of the remaining 111 it is probable that between eighteen and twenty will go to the post.

This is the tenth year of the American derby, and it has been a close and keenly fought one. In the past it has been won by horses inferior to those that should have captured it. Modesty in 1893, Volante in 1896, Emperor of Norfolk in 1898, Spokane in 1899, and possibly Strathmore in 1901 were the animals that should have won the blue ribbon, but Silver Cloud, Uncle Bob and Curlew in other years ought never to have secured the prize.

## Likely Entries.

This year the race seems to be a more open one than ever. It is a case of the east against the west, with certainly an Englishman and perhaps a Canadian, thrown in. As far as can be figured on at present, the east will be represented by M. P. Dwyer's Don Alonso, Foxhall's Charlie, J. H. Keene's St. Leonard, both in the same interest; Gideon and Daly's Ramapo, Oreck stable's (Dr. Knapp) G. W. Johnson, J. A. and A. H. Morris' Rainbow, Marcus Daly's Sir Francis and the Empire stable's Commodore. The western contingent is made up of J. G. Cushing's Lookout and Boundless, E. Corrigan's Tyro and Richardson, L. J. Rose's Clifford, M. D. Richardson's Voorhes, Kentucky stable's Ingomar, Seagram's Brock McMan and J. McCaffery's Hugh Penny. California may be represented by C. L. Fair's Floodgate and Dare, Santa Anita stable's San Francisco and Lady Rose, and D. J. McCarthy's Oporto. The solitary Englishman will be the Duke of Beaufort's Strathmore and Canada will depend on Maryland, owned by J. E. Seagram of Toronto. Some of these may not start, and on the other hand, dark horses may crop out at the last moment, but it is morally certain that the three first from the post and will be found in the list given.

## What They've Done.

In the winter books Don Alonso, Sir Francis and G. W. Johnson have occupied the position of favorites, but when the racing season opened there were changes. Don Alonso commenced well, winning three races of the reel, and met his first defeat at the hands of Rain-bow in the Brooklyn derby. This brought Rain-bow into the picture, but he suffered defeat, and received his quietus at the hands of Don Alonso at Morris park last Wednesday, where he was easily beaten over the derby distance, a mile and a half, by M. P. Dwyer's colt. Chariot has run the fastest mile ever made on track, not perfectly straight, as at Morris park he covered the distance in 1:20 1/4. He has since shown that he can go further, but he has never yet accomplished a mile and a half. St. Leonard is a maiden, but is said to be a good deal better than Chariot. Rain-bow has won once, but has been beaten. He is a game colt and may do well. G. W. Johnson was the pride of the west as a 2-year-old, never having been beaten. When his owner, Jim Brown, was killed, Johnson was sold and Dr. Knapp bought him for \$30,000. The only fault about the colt was that his fore legs were a bit shaky, and he was a hard horse to train. He has started this season three times, but has not won his best performance being a second to Russell at a mile and a tenth. When giving weight to the old horse he was beaten a length in last time. Sir Francis performed well as a 2-year-old, but this year has only started once, being unplaced. It has been said all along that byrnes was specially prepared for this race, so he must not be overlooked. Comanche was a good race at Morris park, but he was beaten on Wednesday. The eastern horses are a hard lot to gauge, as their running has been in and out, but probably Don Alonso and Chariot will be found the best of the lot.

## Lookout's Races.

Of the western contingent, Lookout, in perfect form, is far and away the best. He was a good 2-year-old, and his defeat of that good sprinter, Oregon Kidnap, at six furlongs, when he was giving the older horse six pounds, made him best in the west. This season he has done everything that has been asked of him. He won the Gibson stakes at Memphis, the Kentucky derby at Louisville and a seven-furlong race at Hawthorne. It is claimed that he has beaten nothing and is in the best of his career. He has not been in first class, but he has done all he could, and it is certain he is a race horse. At present he is fit and well and moving strongly. Clifford has been felled all the winter by having pneumonia. He only started once as a 2-year-old, but this year he has faced the flag five times and won three. His best performance was at Lexington last Monday, when, with 110 pounds up, he ran a mile in 1:40 1/4, and ended on the mile and a quarter in 3:05 1/4. It is believed a good colt, but his race, though he could go the distance, has never produced a distance that could run a mile and a half. Rain-bow, Duquesne, is by Louisiana and also may have given him his starting power. The French pair, Tyro and Curlew, are unknown, and may not

start, though Tyro is one of the best animals seen in training. Weather is also a factor, but he is said to be better than Weather and is expected to be the favorite. The favorite, however, is Sir Francis, the English colt, who has undergone a careful preparation and his trainer, Swepson, will bring him to the post as a favorite. Moreover, the English colt, who is said to be better than Weather and is expected to be the favorite, is Sir Francis, the English colt, who has undergone a careful preparation and his trainer, Swepson, will bring him to the post as a favorite.

## The Derby's Story.

Importance will not be taken in a very much, and High Point has not done well this year. Of the California, Florida and Texas, are the horses that will be in the derby, and the English colt, who has undergone a careful preparation and his trainer, Swepson, will bring him to the post as a favorite. Moreover, the English colt, who is said to be better than Weather and is expected to be the favorite, is Sir Francis, the English colt, who has undergone a careful preparation and his trainer, Swepson, will bring him to the post as a favorite.

## TOO HOT FOR PLEASURE.

Four Persons Could Have the Heat at the Fair Grounds.

CHICAGO, June 18.—With the mercury in the thermometer striking at the ninety degree mark in the shade it was hardly possible to expect a great crowd of people at the exposition today. Excepting on the grounds of the fair, the white city was hot, and in some of the glass roofed buildings, especially machinery hall, the heat was felt more than in the open air. The fair is absolutely bare of shade trees, but the grounds are well watered, and the water is cool. ## HIDE FOR MOUX CITY.

Douglas Gives Up in the Great Cowboy Race to Chicago.

WATERBURY, Neb., June 18.—An unexpected twist was given to the hand at break of day to greet the riders in the noted cowboy race, this being their registering place. Word by wire last night reached them as registering at O'Neill box in the Brooklyn derby. From this fact it was expected that they would arrive tonight or early in the morning, but this hope was not realized. A 3:25 cheer was raised by the crowd and amid a cloud of dust two riders, each leading a horse, trotted up to the Saxton house, dismounted and registered in the following order: Gillespie first and Stevens second. Five minutes later Doc Middleton arrived and went through the same performance. The horses were in good condition, appearing as fresh as the day they started. After the registration, the president and the secretary of the department of state and other (if any) representative or official thereof having authority in the premises for such official or other consideration, benefit and advantage, as in the said provincial attorney shall, may or can be obtained from the United States of America, as well for myself and family as well, and said Kaulani in consideration of existing conditions and circumstances, and if no official consideration for myself or said Kaulani shall, in the opinion of my attorney, be attainable from the United States of America, then and thereupon, and in such case to arrange and agree upon such pecuniary considerations, benefits and advantages as can or may be secured for myself and family and for said Kaulani from the United States of America and whether the same shall be in the form of payment at one time or in the form of annuity or of distinct sums of money to myself and said Kaulani, or in payment of stated sums of money annually or otherwise for a fixed term of years or for a fixed period or periods of time and upon ascertaining that such pecuniary considerations, benefits, advantages or payments of money from said on the part of the said United States can be secured, to agree upon, receive and accept the same and in my name and behalf to make, execute and deliver such agreements, releases and acquittances of all my claim, demands and pretensions what ever upon the throne of the Hawaiian islands and upon the government of the United States of America as well of the Hawaiian islands and upon all persons having had anything to do with or having been or being in any way connected with the said provincial government as shall be required to accomplish and secure such pecuniary considerations, benefits, advantages and payments or which shall be required thereby for the president in the secretary of the department of state of the United States, or by any one of my representatives or officials of the United States

Full Text of the Queen's Speech Made by the Queen to Treat With the United States.

HONOLULU, June 18.—The malicious act intended for the dynamite bomb captured a few hours from the barracks May 21, is shown by the presence in the palace of a viol of falconer of arms, with a few such as the natives are in fishing. The removal of the treacher from the barracks to the palace basement, previously planned, was hastened a day or two. The palace is admirably constructed and located for defense against anything but artillery. The occupation of the palace by the executive officers was substantially completed June 5 and formal reception with some ceremony at 10 a. m. The second session of the executive building in the three rooms at 5 p. m. The palace is officially styled the executive building and the old government house.

## Speeches Get His Cash.

Class Speeches has returned Kaulani, where he labored faithfully to influence the planter against annexation without success, so far as known. The payment of \$5,000 demanded of the government by Speeches was completed June 5.

Mr. and Mrs. Blount sailed June 6 for Maui, greatly in need of rest and change and anxious to see something of the country. The Hawaiian Evangelical association, which represents the protestant majority of the natives, has organized, choosing Kaulani, a native annexationist leader, as moderator. The government yesterday gave out for publication the text of the queen's speech of January 31, to sell out her claims to the sovereignty of the island to the United States, copies of which were held by President Dole and Minister Stevens.

When Mr. Neumann returned to Honolulu and severed his professional relations with the ex-queen, he made certain disclosures to the government, which relieved him from any further secrecy regarding the matter, and the cabinet determined to make it public. However, they deemed the circumstances and the welfare of the country demanded. President Dole lately decided that such a time has arrived, and the document is now published in full.
